

Hello! My name is
ALEX HARRISON
Games Developer

📍 Askop Road, The Craggs, South Africa
harrison_alex@hotmail.com
0027 7906 22981

📄 PROFESSIONAL PROFILE

I've been a developer for over 10 years and specialised in 2D casual games around 5 - 6 years ago, coding primarily with javascript since 2014. I've regularly coded games for well-known childrens brands such as Dreamworks, Cartoon Network, Cbeebies and Nickelodeon. I do a lot of work with code driven animation using plain maths, tween engines and skeleton animation frameworks such as Spine and DragonBones. I normally work with Pixi.js but am just as comfortable using Phaser or other frameworks if the job requires it. I enjoy scripting systems to automate exporting layout data and assets from photoshop and flash.
